

N.I.C.C.

June 2015 Newsletter

Editor Bonnie Letich

Congratulations to Benjamin Wielgat, senior at Antioch Community High School, recipient of N.I.C.C.'s \$1000 Scholarship.

On his scholarship application he wrote, from the time when he was younger he loved the outdoors realizing what it has to offer. He knew that he didn't want a standard office job where he would be inside. With his love of science and his interest of the outdoors, this lead him to a career in Environmental Science. He will be attending the University of Wisconsin Stevens Point to earn a degree in forestry.

Adopt-A-Highway & Grounds Cleanup on May 2.

It was a perfect day for our spring Adopt-A-Highway and grounds cleanup on May 2. A special thank you to Ellen Ipsen, for doing a pre-cleanup on Grass Lake Rd a couple weeks in advance, saving us time not having so much debris to be picked up. Thank you Ross Musumeci for coming out to join the crew for the grounds cleanup. There were plenty of leaves to be raked, branches to be trimmed and an old picnic table to be cut up. Even inside the house received some much needed attention.

MEMBERSHIP DUES For those of you who have renewed your membership, thank you.

HELPFUL GARDEN HINTS

Instead of throwing your egg shells away, rinse them, crumble them up and put them outside for the birds to eat. The birds love to eat them, and the shells add strength to the eggs that the birds lay.

When you clean the fireplace, spread the ashes over your garden and compost pile. Thanks to the ashes, insects won't chew on your garden plants.

Used coffee grounds sprinkled around the garden will keep the snails away. Green bell pepper strips scattered around the garden and yard will help keep ants away.

*Motivation is what gets you started.
Habit is what keeps you going.*
